Grape varieties: CHARDONNAY

Vineyard location: Elisena, via Valdaso, hamlet of Campofilone. We are in the heart of the Aso Valley. North side, a very cool area where the Adriatic sea and Sibillini mountains breezes alternate during the day.

Vine training method: Guyot

Planting density: 5000 stumps per hectare

Yield per hectare: 1,0-1,1kg per vine

First year of production: 1997

Harvest period: first half of September

Harvest method: hand picking, in crates, early in the morning.

Vinification: we harvest in the very early hours of the morning, the grapes are hand picked and put into small crates, so that the fruit carried to the cellar is still intact and not stressed by the high temperatures of the day. The destemmed grapes are put into the press and 100% of the free-run must is transferred into new barriques after an initial clarification of 12 hours. Here the alcoholic fermentation takes place followed by the malolactic fermentation which will determine the residence times of the wine in barriques (about 6 months). After 5 months and repeated batonage, the wine is transferred into steel tanks. After bottling, Elisena is left to age in the bottle for a few months in the historic cellar.

Serving temperature: 10°c /12°c
